ABDUL REHMAN

BACKEND ENGINEER / AI ENGINEER / AI AUTOMATION

Islamabad, Pakistan • +92 336 5133797 • abdulrehman007033@gmail.com
linkedin.com/in/abdulrehman007034 • abdulrehmandev.me

PROFESSIONAL PROFILE

Backend and full-stack software engineer building production-focused APIs, enterprise applications, data-ingestion pipelines and applied AI systems. Experience spans LLM-enabled workflows, AI agents, embeddings, vector retrieval, Neo4j knowledge graphs and real-time conversational AI. Combines application engineering with infrastructure, automation and pragmatic system design.

PROFESSIONAL EXPERIENCE

Research Software Engineer | SkyGenic

Feb 2026 – Present • Boston, Massachusetts, USA

- Build backend services and data-ingestion pipelines for medical-research data processing and AI-driven knowledge bases.
- Develop Neo4j-based knowledge systems that organise research information for downstream AI integration.
- Contribute to backend architecture, DevOps, infrastructure and workflow automation to support reliable, scalable processing.

AI Solutions Architect | Kneva Tech

Jan 2026 – Feb 2026 • Islamabad, Pakistan

- Built a legal AI chatbot and regulatory-comparison workflows to help users understand requirements across jurisdictions.
- Integrated conversational functionality into an online food-delivery application.
- Developed a psychiatrist management application using Python and React, integrating an AI agent, embeddings and ChromaDB contextual retrieval.
- Implemented AI-assisted psychiatric-report analysis and automated documentation generation; no autonomous diagnostic decisions.

AI Engineer | DevRolin

Sep 2025 – Jan 2026 • Islamabad, Pakistan

- Designed recruitment automation covering job posting, applicant processing, AI scoring, ranking, shortlisting, HR verification and interview scheduling.
- Built a real-time Zoom-integrated AI interviewer with STT, TTS and LLMs; reduced response latency from approximately 6 seconds to 0.8 seconds.
- Developed sentiment and behavioural analysis features and reusable communication-platform integrations.
- Contributed to recruitment workflows associated with a reported hiring-cycle reduction of more than 50%.

.NET Developer | Xyron Technologies

Jul 2024 – Aug 2024 • Islamabad, Pakistan

- Contributed to Point of Sale (POS) application development and supported functional implementation.
- Implemented selected server-side features for XyronAcademy and supported .NET backend APIs and integrations.

Full-Stack Developer | Stertak | Dynamics 365 | Power Platform

Mar 2023 – Jan 2024 • Pakistan

- Developed and maintained frontend and backend application features in Microsoft Dynamics 365 and Power Platform environments.
- Supported enterprise integrations and application functionality across the full stack.

TECHNICAL SKILLS

Languages: Python · JavaScript · C# · PHP · C++

Backend & frontend: REST APIs · Node.js · React · ASP.NET / .NET · Full-stack development · Git · Testing

Applied AI: LLMs · AI agents · Generative AI · NLP · Embeddings · Retrieval systems · Vector databases · STT · TTS · scikit-learn

Data & infrastructure: Neo4j · Knowledge graphs · Data ingestion · ChromaDB · MySQL · SQL Server · MongoDB · Firebase · CI/CD · DevOps · Google Cloud

EDUCATION

Bachelor of Science in Computer Science | Capital University of Science & Technology | 2022–2025

CERTIFICATIONS

Foundations of Data Science · Supervised Learning with scikit-learn · Natural Language Processing (NLP) in Python · Introduction to Data Science in Python · Python for Data Science, AI & Development

HONOURS & AWARDS

Dean's Honour Roll · 3rd Position — ExcITe Cup
